

What will I be able to SEE and DO at the MLE Expo?

Explore a full scale floor plan based on an existing MLE in New Zealand

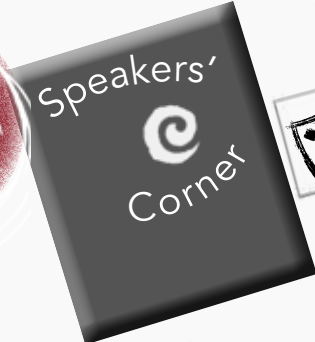

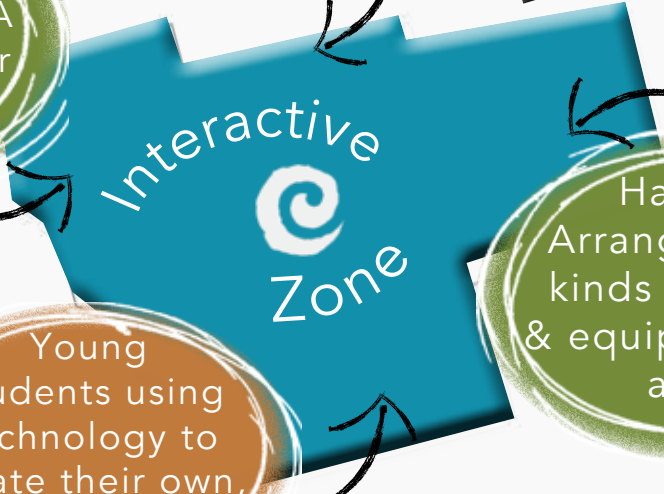

Design activity with Kevin Honeycutt: A class building their school on Mars

More than 20 stands exhibiting information on all aspects of MLEs, including architects building materials, furniture, resources, and technology

Young students using technology to create their own, virtual MLEs

Hands-on: Arrange different kinds of furniture & equipment within an MLE

Hear short talks from a variety of experts throughout the day
